## About Us

### Mission and Vision

**Vigyan Setu Foundation** believes that awareness not only acts as a catalyst for change but also empowers society. Social awareness brings in the ability to understand and respond to a certain social situation in an appropriate way, along with the ability to realize and properly communicate with people across backgrounds. With changing times, every member of society must evolve and develop one of the important skills of social awareness. The mission of **Vigyan Setu Foundation** is to raise awareness in society using methods of science.

The vision of **Vigyan Setu Foundation** is *Bridging Science and Society*

### Objectives

The principal objectives of **Vigyan Setu Foundation** are to promote education in general and science education in particular, communication skills and personality development among younger generation, more particularly school and college going children to develop a better, responsible, logical thinking citizenry.

In order to achieve these objectives, **Vigyan Setu Foundation** organizes programs and events to sensitize the “Generation Next”, create awareness among the general public, and provide capacity building to the professionals about Science specifically, on the issues that affect Society at large, through informative and interactive sessions including talks, lectures, seminars, meetings, exhibitions, workshops, and in and off-field demonstrations.

In addition, **Vigyan Setu Foundation** aims at sensitization and creating awareness particularly among children, womenfolk, and common masses, in general, about conservation of Environment, and preservation of our Scientific Heritage monuments. Also, **Vigyan Setu Foundation** strives at sensitizing young minds, creating awareness among society regarding animal and human health related issues.

Ultimately, **Vigyan Setu Foundation** aims at *Bridging Science and Society*, realizing the fact that ‘**Science is a way of life**’ and Society needs logical and rational thinkers to make Planet Earth a place worth inhabiting.

## Key Functional Areas:

### **Promotion and Popularization of Science:**

**Vigyan Setu Foundation** strives to make science accessible and engaging for the public. Through various outreach programs, **Vigyan Setu Foundation** works to foster a deeper understanding of scientific concepts and their relevance in everyday life.

### **Awareness of Women's Health Issues:**

**Vigyan Setu Foundation** raises awareness about critical women-related health concerns, with a special focus on conditions like thyroid dysfunction and polycystic ovary syndrome (PCOS). These efforts aim to empower women with knowledge about these common yet often misunderstood health issues.

### **Promotion of Science Tourism:**

Using science tourism as a unique tool for communication, **Vigyan Setu Foundation** promotes scientific heritage and discovery. This approach encourages public interaction with science by exploring places of scientific interest, making learning more experiential and engaging.

### **Public Health Awareness:**

**Vigyan Setu Foundation** is also involved in educating the public about diseases of public health importance. By providing accurate information and resources, **Vigyan Setu Foundation** contributes to the prevention and early detection of these diseases, promoting healthier communities.

## Activities

### Innovating Through Digital Engagement

**Vigyan Setu Foundation** has strategically embraced digital platforms as a core part of its outreach. Through engaging blogs, interactive quizzes, and a dynamic e-magazine, we continue our mission of science communication and public engagement to foster scientific curiosity and awareness among diverse audiences.

Our digital-first approach allows us to transcend geographical boundaries, ensuring our initiatives remain accessible, inclusive, scalable, and environmentally sustainable. This model also enables agility in content delivery and innovation in science communication.

We see this as an opportunity to reimagine impact in the digital era—and we remain committed to leveraging technology creatively to bridge science and society in ways that are relevant, responsive, and forward-looking.

- A note from our President

**E-Magazine:** The first issue of **Vigyan Setu**; a quarterly and bi-lingual online magazine was launched on 12/12/2020, on 9<sup>th</sup> Foundation Day of **Vigyan Setu Foundation**.

The e-magazine intends to carry a melange of invited articles, information, news round-up, poems / stories, games / puzzles, anecdotes about commemorative days and scientists, forthcoming events / trainings, a travelogue on science tourism and the likes, encompassing objectives of **Vigyan Setu Foundation**. <https://vigyansetufoundation.in/e-magazine/> is the link to reach for **Vigyan Setu e-magazine**.

During 2024-2025, FOUR issues of **Vigyan Setu e-magazine** were uploaded:

The second issue of the fourth year (April – June 2024) carried articles on A1 and A2 milk types, the dynamic role of Nuclear Energy in India, Tiny Tricksters, Virtual Lab, how more greenery can curb pollution and links this understanding with our existing traditional knowledge. This issue also introduces the National Council for Urban and Rural Development Society (NCURDS), Jammu as covered by Zaffar Ullah Khan.

The third issue of the fourth year (July – September 2024) is a Special Issue that celebrates the International Year of Camelids 2024. It offers a comprehensive exploration of camels' multifaceted roles and significance and covers various breeds, including the Bactrian camels of cold deserts and the unique adaptations of camels in hot arid ecosystems. The economic, environmental, and socio-cultural importance of camels, highlighting their contributions to biodiversity conservation and livelihoods.

Articles on the nutritional benefits of camel milk, the utility of camel wool, and the challenges of camel diseases. Additionally, it also features a captivating journey through the cultural mystique surrounding these remarkable creatures.

The fourth issue of the fourth year (October – December 2024) carried articles on raising awareness about typical lifestyle and critical health issues affecting women of which mental health and PCOS, which are exclusives, some ancient Indian knowledge systems, and the significance of a daily DOSE of happiness.

This issue also carried write-up on an NGO - Animal Protection Society, Udaipur.

The first issue of the fifth year (January - March 2025) had articles on data centres and the possibility of these being submerged underwater, Fireflies (Jugnu), Science Tourism in J&K, and the advances and scope of AI in Animal Science.

This issue of e-magazine introduces a science driven organization, Himalayan Pastoral Trust and their initiatives, covered by its founder, Mr. Sulaiman.

### **Promotion and Popularization of Science:**

**Vigyan Setu Foundation** strives to make science accessible and engaging for the public. Through various outreach programs, **Vigyan Setu Foundation** works to foster a deeper understanding of scientific concepts and their relevance in everyday life.

## Promotion and Popularization of Science

Promotion and Popularization of Science among children particularly and public in general *through hands-on experimentation, demonstrations, lectures, and popular science books exhibition* has been one of the foremost objectives of **Vigyan Setu Foundation**.

During the year 2023-24, when a new norm emerged, the period of recovery, **Vigyan Setu Foundation** embraced the digital revolution. The physical meetings and programs got backseat and hence, this objective was met through virtual mode.

### Blogs and Quizzes:

To commemorate number of international days across the year, blogs on the respective days were uploaded on the website and a quiz was launched based on these days. The global observances related to science in general, and the number of participants that attempted the quiz are enlisted hereunder.

Commemorative Days	Quiz Attempted By
International Plant Appreciation Day	392
World Earth Day	154
World Password Day	113
World Laughter Day	99
International Day of Plant Health	325
International Day of Light	47
International Tea Day	156
International Day of Potato	49
World Bicycle Day	69
World Environment Day	190
Day of the Seafarer	122
Asteroid Day	214
World Lion Day	143
World Honeybee Day	148
International Dog Day	194
World Ozone Day	167
World Science Day for Peace and Development	283
World Sustainable Transport Day	142
World Cheetah Day	117
International Mountain Day	285
Quiz of the Month - January	168
Quiz of the Month - February	192
Quiz of the Month - March	135

### Awareness of Women's Health Issues:

**Vigyan Setu Foundation** raises awareness about critical women-related health concerns, with a special focus on conditions like thyroid dysfunction and polycystic ovary syndrome (PCOS). These efforts aim to empower women with knowledge about these common yet often misunderstood health issues.

## Awareness of Women's Health Issues

Most important health related issues that affect women include Thyroid Dysfunction and Polycystic Ovarian Syndrome (PCOS). Sensitization and Awareness Creation about these conditions, being one of the objectives of **Vigyan Setu Foundation**, were made *through social media, exhibition and interaction with the experts, and distribution of printed flyers.*

During the year 2024-2025 these objectives were met through virtual mode by way of a few presentations re-uploaded on the You Tube Channel.

**World Thyroid Day:** **Vigyan Setu Foundation** re-launched You Tube Channel on 25<sup>th</sup> May 2024, the day, which is being celebrated as World Thyroid Day, every year. The entire presentation was made into a series of seven videos, which were uploaded for public viewing, one video on each day of the week, celebrating World Thyroid Week, from 25<sup>th</sup> May through 31<sup>st</sup> May 2024.

**Polycystic Ovarian Syndrome:** PCOS, in short, is yet another health-related complexity that arises in female population of reproductive age that often goes unnoticed and thereby unattended taking its toll on the well-being of a woman. **Vigyan Setu Foundation** uploaded information on PCOS on its FB account on 08<sup>th</sup> March 2025, the International Women's Day.

<https://www.facebook.com/1818370638386412/videos/268828604031635>

In addition, as a part of PCOS Awareness Month, which is being celebrated globally during September, **Vigyan Setu Foundation** uploaded information related to this syndrome on the website as a Blog in both Hindi and English languages. <https://vigyansetufoundation.in/blog-posts/>

A video presentation on PCOS related awareness was uploaded on the You Tube Channel for public viewing on 01<sup>st</sup> September 2024. <https://www.youtube.com/watch?v=l1VzLWPnu6k>

### Promotion of Science Tourism:

Using science tourism as a unique tool for communication, **Vigyan Setu Foundation** promotes scientific heritage and discovery. This approach encourages public interaction with science by exploring places of scientific interest, making learning more experiential and engaging.

## Promotion of Science Tourism

India has a rich tradition of science and technology that goes back to five thousand years and has several evidence in the form heritage sites or locations that speak a lot about it. Promotion of such Scientific Heritage using Science Tourism as communication tool *through talks, lectures and presentations, and development of resource material* has been one of the key functional areas of **Vigyan Setu Foundation**.

### Blogs and Quizzes:

To commemorate number of international days across the year, blogs on the respective days were uploaded on the website and a quiz was launched based on these days. The global observances related to science tourism in general, and the number of participants that attempted the quiz are enlisted hereunder.

Commemorative Days	Quiz Attempted By
World Heritage Day	138
World Tourism Day	348

### Public Health Awareness:

**Vigyan Setu Foundation** is also involved in educating the public about diseases of public health importance. By providing accurate information and resources, **Vigyan Setu Foundation** contributes to the prevention and early detection of these diseases, promoting healthier communities.

## Public Health Awareness

Yet another key function area of **Vigyan Setu Foundation** is to sensitize and create awareness among one and all, about animal and public health related issues *through talks, lectures, and publication of write-ups or popular articles*. Since during the year 2024-2025 self-designed strategy led all the activities restricted to virtual mode. Remaining undeterred by the limitations, **Vigyan Setu Foundation** continued keeping the patrons glued to the awareness about various diseases and associated issues, all through the year.

### Blogs and Quizzes:

To commemorate number of international days across the year, blogs on the respective days were uploaded on the website and a quiz was launched based on these days. The global observances related to public health in general, and the number of participants that attempted the quiz are enlisted hereunder.

Commemorative Days	Quiz Attempted By
World Malaria Day	171
World Blood Donor Day	173
International Day of Yoga	170
World Zoonoses Day	162
World Physiotherapy Day	220
World Animal Welfare Day	163
World Sight Day	116
World Spine Day	242
World Diabetes Day	175
World AMR Awareness Week	145
World Meditation Day	256

### Events:

#### Zoonoses Ambassador 2024 programme

The **Zoonoses Ambassador 2022 (ZA24)** programme was launched on 06<sup>th</sup> July 2024, the World Zoonosis Day.

The registrations were received from TEN Indian States and ONE from Overseas, making it a global event, in true sense. Geographic distribution of participants who registered for the **ZA24** programme includes 21.88% each from Jammu and Kashmir, and Rajasthan, 15.63% from Uttar Pradesh, 12.5% from Maharashtra, 6.25% each from Gujarat, and West Bengal, 3.13% each from Andhra Pradesh, Delhi, Dadra and Nagar Haveli and Daman and Diu, Tamil Nadu, and UAE.

The ZA24 programme was conducted in TWO phases. In the first phase, more than 800 responses were garnered by the participants through online survey. This was done to assess the levels of knowledge and understanding. of the members of the society, about zoonotic diseases, across the age, gender, background.

Of the registered participants, 37.5% moved to the second phase of the programme. During this phase, the prospective Zoonoses Ambassadors made presentations in schools, colleges, or in the home or office settings. A total of roughly 1600 direct beneficiaries were addressed. Considering that each of them would share the information with five members of family and friends, it reaches up to 8000 indirect beneficiaries.

From the second phase, 50% could be honoured as Zoonoses Ambassador. One of them is a youngest and zealous Zoonoses Ambassador, Ms Vani Vinod Kumar from Sharjah (UAE), who is a standard 7 student. A great inspiration for the younger generation, indeed.

### Zoonoses Ambassadors

- ❖ Ms Vani Vinod Kumar from Sharjah (UAE)
- ❖ Dr Vikas Mishra from Uttar Pradesh
- ❖ Dr Smruti Smita Mohapatra from Jammu
- ❖ Dr Rajesh C Senma from Gujarat
- ❖ Ms Priyanka Chaudhari from Gujarat
- ❖ Ms Suvidha D Jadhav from Maharashtra

Here are some glimpses from the outreach activities carried out by our Zoonosis Ambassadors, in India and abroad.

**Rabies Ambassador 2025 (RA25) programme: Launch Report**

One of the core objectives of the **Vigyan Setu Foundation** is to raise awareness and sensitize society about critical animal and public health issues. After the success of three previous initiatives—Zoonoses Ambassador 2022, Zoonoses Ambassador 2024, and Rabies Ambassador 2023—the **Vigyan Setu Foundation** proudly launched the **Rabies Ambassador 2025 (RA25)** programme on World Animal Day, October 4, 2024.

Rabies, a neglected tropical disease, disproportionately affects marginalized populations, making awareness and prevention efforts among these communities a top priority. The RA25 programme aims to extend its reach as broadly as possible, focusing on raising awareness and promoting rabies prevention through the efforts of prospective Rabies Ambassadors. These Ambassadors will conduct presentations, deliver talks, and hold interactive sessions in schools, colleges, public meetings, and social gatherings. The goal is for the direct beneficiaries to carry the message to their families, friends, and acquaintances, expanding the RA25 programme's impact through indirect education.

**Key components of the RA25 programme:**

**Registration:** A total of 217 participants from India and Nepal registered for the RA25 programme. Participants from India represent 14 different states and union territories.

**Presentation:** The registered participants are organized into six groups, each guided by a dedicated Team Lead. These Team Leads will coordinate activities and ensure that the programme's objectives are met effectively.

### Distinguished Team Leads:

**Dr Lankesh Yashwant Bhaisare** did his graduation from Govt. Institute of Science, Nagpur, Maharashtra, Post Graduation in Zoology with specialization in 'Animal Physiology' from Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur, Maharashtra, and completed his Doctoral degree in the subject of Zoology from Indira Gandhi National Tribal University, Amarkantak, Madhya Pradesh.

Currently, he is working as Assistant Professor (Guest) in the Department of Zoology, Govt. Swami Atmanand Post Graduate College, Narayanpur, Chhattisgarh. His area of research is Behavioural and Molecular Science.

**Dr Rajesh C. Senma**, working as Assistant Professor in Zoology, Biology Department, M. N. College, Visnagar, Dist. Mehsana, Gujarat. He has 12 years of UG and PG teaching experience. He is a Ph.D. Supervisor and published 11 research papers and 10 books. He is a Director in the AOZ Association of Zoologists and Life member in WCB Research Foundation, Vigyan Gurjari, Bird Conservation Society of Gujarat (BCSG) and Ethological Society of India.

He has actively participated and was honoured as Zoonoses Ambassador 22, Rabies Ambassador 23 and Zoonoses Ambassador 24 launched by Vigyan Setu Foundation.

**Dr Deepak Sharma**, Assistant Professor of Public Administration, Himachal Pradesh University, Shimla is a distinguished academician and dedicated social worker who has been working for the past 15 years to mitigate animal-human conflict.

His dedicated commitment and wholehearted activities with various NGOs have resulted in the education of animal human conflict and pain of mute creatures. He has played an instrumental role in community outreach, sterilization, and vaccination of community dogs.

His advocacy, campaigning and work has been lauded and felicitated by Municipal Corporation Chandigarh, Panjab University Alumni Association-Chandigarh

Commission for Protection of Child Rights-National Service Scheme, People for Animals, Animal Lovers Association and Centre for Social Work-PU.

He was the sole person from India who was selected and invited by Dogs Trust, United Kingdom for International Training Programme. His contribution during Covid-19 towards voiceless animals and community was appreciated by Department of Alumni Relations-Panjab University and Tera he Tera (NGO).

**Dr Wahied Khawar Balwan** is presently working as Associate Professor in Zoology at Department of Zoology, Govt. Degree College Doda, Jammu and Kashmir, India. He has published 90 research articles in national and international journals of repute, authored 78 books, published about 69 popular articles in different newspapers of the state and national magazines.

He is a recipient of about 65 awards at national and international platform from different educational institutes, academic and research societies. He has attended more than 100 conferences, workshops, different academic courses and seminars and delivered many lectures as resource person beside chairing the scientific sessions. He is life member of about 39 academic and research societies.

**Dr Smruti Smita Mohapatra** is a veterinarian with Ph.D. in Veterinary Physiology.

She holds a PG Certificate in Agriculture Policy from IGNOU and PG Diploma in Animal Protection Laws from NALSAR. She has worked as a veterinarian in different capacities as – a practitioner, an educator, a consultant, and a researcher. Post-Doctoral studies, she worked as a Research Fellow, at Verghese Kurien Centre of Excellence, IRMA, Gujarat. She deals with research projects on dairy, animal health, cooperatives, indigenous people, pastoralism, and rural development.

She was the Principal Researcher for the research project in IRMA on *Maldhari* pastoralists in Kutch, Gujarat. A passionate science writer, she has many awards and laurels to her credit along with popular, technical research articles and scientific abstracts in various animal husbandry magazines, websites, and national/international conferences. She has been included in the Editorial Board of various magazines. She is a member of international consortiums on pastoralism.

She is a peer reviewer for many scientific journals. She is a resource person for national dairy and poultry farmers' training programmes. IIT, Kharagpur, and IGNOU-NCIDE have adjudged her as a potential innovator. She is a strong advocate

of gender-integrated livelihood, animal welfare issues, agriculture policies, UN Sustainable Development Goals, and global climate change.

She is the UT Representative of Pastoral Livestock Census 2024 in Jammu & Kashmir. She is the Team Leader (Documentation) of Regional IYRP Support Group of South Asia, Jammu & Kashmir. She was the Rabies Ambassador 2023 & Zoonoses Ambassador 2024 by Vigyan Setu Foundation in Jammu & Kashmir.

**Dr Vikas Mishra** is Assistant Professor in the Department of Teacher Education at Akbarpur Degree College Akbarpur, Kanpur Dehat. He is working for science popularisation since last 25 years. His area of science popularisation is social welfare being carried out through lectures, demonstrations, puppetry and other innovative, and traditional media. He has conducted more than 25 workshops in Uttar Pradesh. He is a team leader, and his team is working in the field of science popularisation through Folk Media. Separate sessions were allotted for his presentation in India International Science Festival (IISF) at Chennai, Lucknow, Kolkata, Goa, Bhopal and Haryana. Authorities of NIScPR New Delhi invited his team for presentation in One Week, One Lab program (OWOL). He also played effective role in NCSC 2023 & 2024.

Dr Vikas Mishra was honoured with the prestigious National Award for Science Communication in the year 2021 by the National Council for Science and Technology Communication, Department of Science and Technology, Government of India (NCSTC-DST-GOI).

### Associated Institutions participating in the RA25 Programme:

- Govt. Swami Atmanand Post Graduate College, Narayanpur (Chhattisgarh)
- Department of Zoology, Govt. Degree College, Doda (Jammu and Kashmir)
- M. N. College, Visnagar (Gujarat)
- Akbarpur Mahavidyalaya, Akbarpur, Kanpur – Dehat (Uttar Pradesh)

Through collaborative efforts and active participation, the RA25 programme aims to create a ripple effect, amplifying awareness about rabies prevention in the communities, both directly and indirectly. This initiative is another step forward in **Vigyan Setu Foundation**'s commitment to improving public health and addressing zoonotic diseases.

## Advisory Team

S.No.	Name	Occupation	Position
1	B S VYAS	Retd Govt Officer	President
2	MEENA LALIT SHARMA	Professor	Chairperson
3	LALIT KUMAR SHARMA	Family Veterinarian Science Communicator	Managing Trustee & Hon Secretary
4	RAMGOPAL D PANDE	Tax Consultant	Treasurer
5	LEELA KUMARI VYAS	Home maker	Member
6	NEHA LALIT SHARMA	Student	Member
7	GAJENDRA SHARMA	Business	Member
8	BINDU G SHARMA	Bank Officer	Member
9	PREMLATA R PANDE	Educationist	Member

### Editorial team – Vigyan Setu e-magazine

<b>Editor</b>  <b>Er NEHA LALIT SHARMA</b>
<b>Members</b>
<b>PROF MALINI K V</b> - Head, Department of Electrical and Electronics Engineering, Sri Sairam College of Engineering, Bengaluru (Karnataka)
<b>DR K SAMBANDHAN</b> – Head, Department of Botany, Arinagar Anna Government Arts and Science College, Karaikal (Puducherry)
<b>DR BALWINDER SINGH SOOCH</b> – Head, Department of Biotechnology, Punjabi University, Patiala (Punjab)
<b>SWATI SHARMA</b> - Product Marketing Analyst with Valeo, Paris (France)
<b>NILESH DEOKAR</b> - PhD scholar at Institut für, Kernphysik, Mainz (Germany)

## **Associates**

For the different events organized during the year 2024-2025, **Vigyan Setu Foundation** got associated with various organizations, who directly or indirectly played a critical role in conducting the activities, includes-

- Girls Literacy Residential School, Diyapada, District-Narmada
- Ashram Shala, Pataldevi, District-Surat
- Eklavya Model Residential School, Dediyapada, District-Narmada
- Kasturba Kanya Chhatralaya, Vankal, District-Surat
- Dr Ashaben Patel Government Science College, Vadnagar, District-Mehsana
- M N College, Visnagar, District-Mehsana
- Prime Academy, Visnagar, District-Mehsana
- Shah S D High School, Kukarwada, District-Mehsana
- PCMC Madhyamik Vidyalaya, Keshav Nagar, Chinchwad
- Regiment Club House, Kaluchak, Jammu
- Bal Bharti Public School, Channi Rama, Jammu
- Shiksha Niketan Senior Secondary School, Jeevan Nagar, Jammu
- Akbarpur Degree College, Akbarpur, Kanpur Dehat
- Bright Angels Education Centre, Akbarpur, Kanpur Dehat
- Land The Cont, Sharjah (UAE)
- Venus Auto Maintenance, Sharjah (UAE)
- Vienna Turning Engineering and Steel, Sharjah (UAE)
- Vintron General Trading LLC, Dubai (UAE)

## Accreditations

**Vigyan Setu Foundation** is registered under The Bombay Public Trusts Act, 1950 with Registration No **E7744/Thane** dated 12/12/2012

NGO DARPAR Registration No **MH/2016/0112138**
